C.C.D.Auto Drilling M/C

CHID-68

Feature/Characteristic:

- 1.This machine using 256 gray scale levels image system.It can recognize target quickly. Reduce the chance of judgment mistake. Increase the efficiency of production.
- 2.This machine using NSK high speed spindle. The drilling density can reach 8 μ .
- 3.This machine using precise lubricator which is made in Japan . The lubricator includes oil measurer. When the oil is not enough,If will be shown and stop running. It can protect the spindle being damaged.
- 4.The machine can meet the need of different manufacture process or different material. Both upper light source or bottom light source system are available to solve different drilling problem.
- 5.Operation interface can be Chinese or English. It makes operating being very easily and friendly.
- 6.Mask target. Ink target. Solid target. Hollow target (under \varnothing 5mm)all can align position to drill.

Function:

For precise drilling of single, double, multiple layer PCB and Film.

Spec.:

01	Center hole position function	Drill x~y move	08	Image processing drilling speed	1.5 sec/hole
02	Position accuracy	± 0.01 mm	09	Voltage	1 \varnothing AC 220V 50/60Hz 10A
03	Drilling size	$\varnothing 0.8 \sim \varnothing 5.0$ mm	10	Air consumption	6 kg/cm ² 160 liter/min.
04	Spindle rpm	25,000 rpm	11	Weight	345 kg
05	Xy axis movement	± 3.0 mm	12	Dimension(W*H*L)	700X1232X1010mm
06	Screen spec.	15" LCD	13	Vacuum capacity	43.5 L/sec
07	Image window	6 \times 8mm(max)			

景暉精密企業有限公司

CHING HUEI PRECISION CO., LTD.

臺灣總公司

公司電話:886-3-3222845-6

公司傳真:886-3-3228325

公司地址:338桃園縣蘆竹鄉南崁路一段305號
