C.C.D. AUTO DIFFERENCE SHAPE HOLE PUNCH M/C

CHP-88

Suitable:

1. Can parallel all difference shape hole and rotundity hole integrated punching.
2. Flexible circuit board, PI synthetic resin pellicle, PET pellicle, aluminium board, inscription board, inner circuit board punching.

Feature:

1. Using 256 grey level image disposal system which produced by America CONGEX CORP. Reach recognition target quickly, debase unjust judgment chance, enhance production efficiency.
2. Operate interface can switch in Chinese or English, convenience to operate.
3. Line target mark. Ink target mark. Solid target mark. Hollowness target mark.
4. Upper & down mold's material using tungsten steel which special be used for mold. High precision.
5. Upper & down mold's X • Y • θ axes punching image integration synchronously moving and orientation. This way can get high stability and high precision.
6. The work stuffs be fixed by press board & vacuum acetabula, can make choosing.
7. Match the works stuffs need, the mold can be made any hole shape and replaced easily and quickly.
8. Integrative table using Japan YASKWA servo motor match with NSK accurate guide bar and THK high accuracy.
9. sliding guide, high position accuracy and speed fast.

Spec.:

01	POSITION ACCURACY	± 0.01 mm	08	C.C.D. LIGHT SOURCE	Using LED, can choose upper or down
02	PUNCH APERTURE	$\varnothing 1 \sim \varnothing 5.0$ mm	09	IMAGE MEND RANGE	X•Y axis ± 3 mm θ axis $\pm 9^\circ$
03	PUNCH THICKNESS	Under 0.6mm (depend on material)	10	M/C WEIGHT	418 kgs
04	PUNCH SPEED	1.3sec/hole	11	M/C DIM.	(L)930*(W)700*(H)1232mm
05	MONITOR SPEC..	15" LCD	12	AIR COMSUMPTION	1 \varnothing , 2W, AC 220V, 50/60Hz, 6A
06	IMAGE WINDOW	6 \times 8 mm (max)	13	VOLTAGE	400L/min. (6kg/cm ²)
07	PUNCH POWER	110kg
